

Aafrin Shaikh

Pune, Maharashtra, India | aafrinshaikh1966@gmail.com
[linkedin.com/in/aafrinshaikh-96bb1b325](https://www.linkedin.com/in/aafrinshaikh-96bb1b325) | [GitHub: github.com/aafrinshaikh](https://github.com/aafrinshaikh)

PROFESSIONAL SUMMARY

Motivated 2nd-year Computer Engineering student with a self-driven approach to learning programming and software development. Demonstrated ability to transition from a non-coding background to building strong foundations in Python, Data Structures, and Object-Oriented Programming. Passionate about problem-solving and eager to apply technical skills in real-world applications. Completed multiple industry simulations including JPMorgan Chase Software Engineering and actively building projects to strengthen development capabilities.

EDUCATION

Bachelor of Engineering in Computer Engineering Pune, Maharashtra
Ajeenkya DY Patil University *September 2024 – June 2028 (Expected)*

- Current Focus: Data Structures & Algorithms, Object-Oriented Programming, Python Development
- Relevant Coursework: Programming Fundamentals, Computer Science Principles, Problem Solving
- Self-Learning: Continuously improving coding skills through online platforms and hands-on practice

Higher Secondary Certificate (12th), Science Rajgurunagar, Maharashtra
Mahatma Gandhi Vidyalaya and Junior College *June 2023 – June 2024*

TECHNICAL SKILLS

Programming Languages: Python (Primary), HTML, CSS, Basic JavaScript
Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving
Web Technologies: HTML5, CSS3, Responsive Design Basics
Tools & Platforms: Git, VS Code, GitHub, Linux/Unix Basics
Soft Skills: Self-Learning, Adaptability, Team Collaboration, Dedication, Continuous Improvement
Languages: English (Professional), Hindi (Native)

PROJECTS & TECHNICAL WORK

Data Structures Implementation Library | Python GitHub: github.com/aafrinshaikh/ds-library

- Implemented fundamental data structures including linked lists, stacks, queues, and binary trees in Python
- Created comprehensive unit tests achieving 90%+ code coverage to ensure reliability
- Documented all implementations with time and space complexity analysis for educational reference

Personal Portfolio Website | HTML, CSS, JavaScript Live: aafrinshaikh.github.io

- Designed and developed responsive personal portfolio website showcasing projects and technical skills
- Implemented mobile-first design approach ensuring optimal viewing across all device sizes
- Utilized modern CSS techniques including Flexbox and Grid for clean, maintainable layouts

Problem Solving Portfolio | Python, Algorithms GitHub: github.com/aafrinshaikh/coding-practice

- Solved 100+ coding problems focusing on arrays, strings, sorting, and searching algorithms
- Documented solutions with multiple approaches, comparing time complexity and optimization techniques
- Practicing daily on platforms like LeetCode and HackerRank to strengthen algorithmic thinking

PROFESSIONAL TRAINING & SIMULATIONS

JPMorgan Chase - Software Engineering Job Simulation

2024

- Completed virtual software engineering experience simulating real-world development scenarios
- Gained exposure to financial technology applications and industry-standard development practices
- Applied programming concepts to solve business problems in a simulated enterprise environment

Lloyds Banking Group - UX Design Introduction Job Simulation

2024

- Explored user experience design principles and their application in banking technology
- Developed understanding of user-centered design methodology and its importance in software development
- Gained perspective on how technical implementation aligns with user needs and business goals

CERTIFICATIONS & TRAINING

- **Placement Preparation Programme** – Comprehensive training in technical interviews and aptitude
- **Internship Common Aptitude Test (ICAT)** – Qualified for internship placement opportunities
- **AI for Beginners** – Foundational understanding of artificial intelligence concepts and applications
- **Programming Foundations** – Completed online courses in Python and OOP fundamentals

ACHIEVEMENTS & ACTIVITIES

- Successfully transitioned from non-coding background to proficient programmer through self-study and dedication
- Maintained consistent daily coding practice regimen to strengthen problem-solving abilities
- Active learner on platforms like LinkedIn Learning, Coursera, and coding practice websites
- Participant in college technical workshops and coding events to enhance collaborative skills
- Building strong foundation in computer science fundamentals with focus on industry-relevant skills
